These levels are evaluated each January. If you joined a level during the year, you have until January of the next full year. Sales are counted January to December. The amount is figured on the net amount of your sale, not the retail. In other words, the total amount spent after your discount.

Please be sure to let the salesperson know you are in our system. Your purchase will then be under your account in your purchase history and will be counted towards your discount level.

Rules regarding Stained Glass Express special offers and coupons:

- Wholesale discounts may not be combined with special offers and coupons.
- In the case that the discount percentage in a special offer or coupon is higher than the customer's discount percentage, the higher discount percentage will be applied to either the entire purchase or to an individual item, whichever applies.
